AERO EDU

UG (haftungsbeschränkt)

Information about the

MBA in Aerospace Management

<https://aero.edu.eu>

Accreditation

- as Teaching and Examination Centre -

2

AERO EDU has been approved and accredited as Teaching and Examination Centre by various European and international academic institutions. Therefore AERO EDU is not providing any academic degrees.

The degrees are accredited and awarded by the partner institutions directly, such as the Paris Pole Alternance (PPA) and its international school IPE Management School - Paris, an established and internationally recognised higher education institution - a Grande Ecole in the Réseau des Grandes Ecoles Spécialisées (GES).

The PPA and IPE jointly offer basic and advanced degrees, the main objective of which is to train managers with outstanding skills and abilities to make a continuous and lasting contribution to the global economy and society as a whole.

Accreditation

- as Teaching and Examination Centre -

We are proud of our close cooperation with the IPE Management School Paris, who is the International School of Paris Pôle Alternance (PPA) and responsible for awarding our Master's and Bachelor's degrees in foreign locations within the authority responsible for Pôle Paris Alternances (PPA). The PPA is a higher education institution of the Réseau Grandes Écoles Spécialisées (Réseau GES) and is fully recognised and authorised by the French government to award level 1 (Master) and level 2 (Undergraduate) qualifications.

AERO EDU is managed academically and qualitatively directly by their different partner to ensure that academic standards and learning objectives are consistent with the academic quality control carried out in their countries.

Research Methods

The research module will be depending on the selected partner as degree granting Institution. You have to choose the degree granting partner before you can start with this module.

Thesis

- Submission of the thesis, which consists of 17,500 words (+/- 10%).
- Submission within 24 weeks after the start of the thesis module.

The thesis module counts as the core module, providing evidence for the overall learning achievements.

€ 8.000,00 TOTAL

2 SEMESTER

90 ECTS CREDITS

A close-up photograph of a large industrial turbine or compressor. The image shows several curved, metallic blades or vanes arranged in a circular pattern. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the metallic texture and the curved geometry of the components. A semi-transparent dark grey overlay covers the bottom half of the image, providing a background for the text.

Candidates with a First Degree

The MBA in Information Technology is a focused programme of postgraduate academic studies. It is aimed at candidates, who have already obtained an undergraduate degree.

The AERO EDU widely accepts higher education degrees not regarding the country of origin or foreign higher education system. Essential prerequisite is that the undergraduate degree is officially recognised in its country of origin.

Work-based Entry Route (without degree)

Equally welcomed are applicants, who have instead of a first (undergraduate) degree significant professional expertise and practice in an organisation. These candidates are admitted by the so-called work-based route.

The expectation for such professional practice is a minimum of five (5) years on managerial and/or supervisory level for which evidence will have to be submitted when applying. It must be understood that such applications are checked individually regarding the presented evidence.
